Shyam Srinivas

Qualifications

- ✓ MBA in General Management, Olin School of Business, Washington University in St. Louis
- ✓ M.S. Environmental Engineering, University of Texas at El Paso
- ✓ B.S. in Civil Engineering, Bangalore University, India

Experience

Shyam has over 20 years of experience working in the environmental, health and safety field as a regulator, professor, consultant and an Environmental Manager for a national equipment rental company. In these roles he has gained extensive experience with environmental and safety program development, environmental permitting and regulatory reporting.

Specific areas of expertise include:

- ✓ Air quality compliance including major and minor source permitting, emission estimating, air pollution control design and implementation, air quality modeling, odor studies and source testing
- ✓ Environmental, health and safety program development
- ✓ Process safety management and risk management planning
- ✓ Greenhouse gas (GHG) inventory development and reporting
- ✓ Pollution prevention and sustainability
- ✓ Environmental, health and safety training
- ✓ Project management

Personal Strengths and Specialties

Shyam's education and experience in project management enables him to create, scale and manage multi-discipline strategies that reduce costs and improve performance. He is also ideally positioned to work with corporate leadership teams to evaluate and implement environmental, health and safety programs and reduce liability.

Clientele

Shyam's experience includes work with food processing/manufacturing operations, equipment rental companies, grain handling operations, wastewater treatment operations, chemical companies, and various metal processing operations.
