

## Small Business Compliance Program

Aquionix is a proven leader in providing environmental, health and safety (EH&S) compliance programs to small business. Our experience and intimate understanding of industrial facilities, related operations and resource constraints allows us to provide practical and cost effective solutions to every day compliance issues. As a small business, Aquionix is uniquely positioned to put our combined 50+ years of experience to work for your small or medium size business.

## Our Compliance Services

- Compliance and management system assessments, from multi-disciplinary to topic specific and everywhere in-between
- Timely updates on regulatory changes and potential applicability
- Development of simple and efficient solutions to compliance issues that take into account risk management and cost considerations
- Development and implementation of EH&S compliance programs and systems with a focus on building upon existing procedures, policies and practices to ensure consistent compliance
- Cost effective compliance based training
- “In-house” EH&S Program Management—get our combined experience and knowledge at a fraction of the cost of hiring an internal resource allowing you to focus on your business while providing peace of mind

## HOW IT WORKS

- Call us and inquire about the Small Business Compliance Program
- Answer a few simple questions regarding industry, size, types of operations, areas of focus, etc.
- We will then provide you with a no obligation preliminary compliance assessment scope and budget followed by an on-site assessment, report and recommendations

Environment

Health

Safety

## Our Mission

We are here to meet your environmental, health and safety compliance needs by delivering practical and cost effective solutions that support your company's long-term goals.
